

The Happenings

www.fctc.coop

**FCTC offers ROUTERS
and FASTER SPEEDS!**

We can offer up to a **GIG** of internet service! All speeds are unlimited with no data caps. Check out our website for all available options and pricing, www.fctc.coop

NO need to travel, NO need to install, and NO need to stress!

If you are experiencing poor performance issues on a particular device, it may be time to update it or replace it. When updating your router, remember that FCTC offers one that is designed to provide uninterrupted connectivity and reduced latency. Contact FCTC for your next router, **FREE INSTALLATION!**

Keeping ALL your devices (IPADS, computers, smart TV's, cell phones, cameras, etc...) up-to-date and retiring older devices is critical for optimum performance. Electronics have a useful life for only a short period of time due to the ever-changing technological landscape. Please make sure to perform updates to your devices, in particular your router monthly.

EMAIL SAFETY TIPS

Email phishing is a form of cyber crime that prompts users to fill in sensitive information or permit the access to retrieve their information through email access. It takes just 1 email for a hacker to steal your identity or infect your device with harmful malware.

HOW TO SPOT A FAKE EMAIL

- 1) Is the message sent from a public domain? (gmail.com, yahoo.com.) No legitimate organization/business will send an email from an address that ends in @yahoo.com. If the domain name matches the sender, then it is probably legitimate.
- 2) Does the sender's email address align with the message?
- 3) Is the email poorly written with misspellings and grammatical errors?
- 4) Does it include attachments or links? DO NOT click on anything that you are not sure of!
- 5) Does the message encourage you to quickly respond? No response would mean a freeze of bank accounts, loss of employment, threat of legal action? Stop and think before you click!

Fiber Project Update

Our contractors are hard at work, we appreciate your patience as they work to complete the construction piece of our fiber build. If you are in rural Dysart and we have not met with you for a site survey, please call our office ASAP. Weather permitting, contractors hope to be off the roads by mid-July.

You're Invited!

On July 3, 2023 FCTC will be offering desert in celebration of Dysart's 150th!

Please feel free to stop by between 11-1:30pm.

Class of 2023

Congratulations to FCTC's 2023 scholarship winner Ryan Reifenhahl!
