Call before you dig.

Tech Hint:

Don't Share Personal or Work Information

Avoid giving out passwords, verification or personal information over the phone. Attackers quite often use urgency to pressure victims into sharing sensitive information.

ALLOCATION NOTICES- Members Take Note!

You will see an allocation notice on page 3 of your August bill. This amount is what will be allocated to you for potential future disbursement. As a reminder, FCTC no longer sends out separate allocation notices. Thank you for being a member and supporting your local cooperative.

REQUIRED PERFORMANCE TESTING CONTINUES IN 2026

Continuing for 2026, FCTC is required by the Federal Communications Commission (FCC) to participate in Performance Measures Testing. It is a compliance program the FCC uses to verify that internet providers are delivering the speeds and quality that customers are paying for. 50 locations are randomly selected to participate. FCTC will reach out if your location is selected.

PROJECT UPDATE: Fiber to the town of Clutier

FCTC is moving forward with expanding our fiber optic network to the town of Clutier in the coming months. You will be noticing a lot of activity including paint markings and locating flags around town. If you have yet to be contacted about a site survey of your property, and you live in the town of Clutier; please call 319-479-7800 to schedule. This must be completed prior to construction.
